

General Manager's Report**Plum Valley Heights Subdistrict of Roxborough Water and Sanitation District****October 21, 2020****Operations:**

- Sterling Ranch has requested RWSD agree to a temporary connection to the Sterling Ranch system to serve Plum Valley Heights and the Douglas County Emergency Vehicle Operations Center in lieu of relocating RWSD's existing water line to accommodate Filing 5a. We have responded that the Sterling Ranch system would not be able to provide adequate water pressure to serve RWSD's service area until its high zone is operational.
- Plans to relocate RWSD's existing 12" water line and upsize it to a 16" have been reviewed and approved. RWSD has also provided a cost estimate of the incremental cost to increase the water line from 12" to 16" that would be paid by RWSD.

Inclusions:

- Nothing to report
