

**General Manager's Report  
Roxborough Water and Sanitation District  
January 20, 2021**

**Information Only**

**Operations:**

- As of January 7, the water treatment plant has returned to normal operations with chloramines for disinfection residual. This should resolve the issues with discolored water and chlorine taste/odor.

**Cyberattack:**

- The District has \$200,000 in cybersecurity insurance coverage.
- Three claims have been submitted to the CSD Pool for the cyber-attack in the amounts of \$146,564.64, 33,023.50 and \$20,411.86 totaling \$200,000.00.
- We are expecting the first two reimbursements to arrive mid-January and the third reimbursement to arrive in late January.
- As of now, the District has incurred \$2,801.64 in recovery expenses above the limit of the insurance.

**Dominion Water and Sanitation District/Sterling Ranch:**

- Day-to-day operations going well.
- RWSD will proceed with lining O-Line manholes and pipe to address corrosion caused by DWSD discharge.
- Sterling Ranch CAB has begun the work to relocate the PVH water line; working to finalize the Facility Relocation Agreement including temporary service to Sterling Ranch Filing 4.
- We completed a high-pressure flush of the entire Sterling Ranch Distribution system pursuant to specific direction received from DWSD.

**Lambert Reservoir/Meadow Ditch Water Rights:**

- Nothing new to report.

**Public Outreach:**

- Completed a blog post related to discolored water explaining the cause and encouraging residents to contact the District directly so we can address the issue.
- The Range Metro District that is planning 550 residential units on the east side of Hwy 85 near Louviers has asked for a letter of support for their proposed Development Plan. Water and sewer service will be provided by Dominion and will include service to Louviers, and the infrastructure may also provide central sewer service to the Titan Road Industrial Park (TRIP).
- 7499 Moore Road Properties, LLC has proposed 200 residential units south of south of Plum Valley Heights and the Messenich horse rescue and abutting Sterling Ranch on the west. Water and sewer service will be provided by Dominion, but the developer did mention RWSD as a potential water provider in their County application.
